## ABOUT AUDACION AI LABS

---

Audacion AI Labs is an independent AI safety research lab studying what AI systems actually do after they leave training. Founded in 2026 by Dee Williams, the lab focuses on post-deployment behavior, runtime research, interaction dynamics, substrate governance, and multi-agent safety, the five pillars of the PRISM Research Framework. Audacion AI Labs is building a citizen science model for AI safety in which the people who use AI every day are part of the research, not the audience for it. Headquartered in Los Angeles.

## ABOUT THE FOUNDER

---

Dee Williams is the CEO and Founder of Audacion AI Labs and ReSkillify Group. Her work began inside enterprise AI deployments, where she observed post-deployment AI behaviors that did not yet appear in the published safety literature. Audacion AI Labs is built around closing that gap. For the full founder biography, visit [audacionailabs.com](https://audacionailabs.com).

## KEY FACTS

---

**Founded:** 2026 (research development began 2024)

**Research Origins:** Operational fieldwork inside enterprise AI deployments via ReSkillify Group

**Headquarters:** Los Angeles, California

**Legal Structure:** Delaware Public Benefit Corporation

**Founder:** Dee Williams, CEO and Founder

**Mission:** Make post-deployment AI safety a field anyone can contribute to.

**Vision:** 1,000,000 contributors. 1,000,000,000 observations. An open record of what AI actually does.

**Research Framework:** P.E.A.Q. (PRISM, EMERGE, Alnity, QUES)

**PRISM Pillars:** Post-deployment behavior, Runtime research, Interaction dynamics, Substrate governance, Multi-agent safety

**Copyright:** U.S. Copyright Case #1-15183994151 (June 2026)

**Impact Goal:** Close the gap between what AI is trained to do and what it actually does in the world.

**Annual Conference:** P.E.A.Q. Summit

## PRESS CONTACT

---

**Media:** [research@audacionailabs.com](mailto:research@audacionailabs.com)

**Speaking:** [speaking@audacionailabs.com](mailto:speaking@audacionailabs.com)

**Phone:** (424) 999-0548

**Website:** [audacionailabs.com/about/press](https://audacionailabs.com/about/press)

**Response Time:** 24 to 48 hours
